Abstract of the lecture:

The presentation briefly mentions the background and current situation how the scholarly communication gave rise to requirements of openness. The origins and different models of Open Access and their reception by publishers in relation to research evaluation together with legal aspects, copyright and creative commons licenses are mentioned as well. Brief description of the state of the art in the world is followed by a more exhaustive account of current situation in the Czech Republic. Finally, the role of projects CzechELib and NCIP VaVal is discussed.
