

## **PROGRAMME**

of the training lecture

### **Mathematicians and Mathematics in "Czech Lands"**

The lecture in the series of lectures within the training  
**"Fundamentals of Research Work"**  
for researchers of the Institute of Mathematics of the Czech Academy of Sciences.

The training course is executed within the project CZ.02.2.69/0.0/0.0/18\_054/0014664 Institute of Mathematics goes for HR Award - implementation of the professional HR management.

**Doc. RNDr. Jiří Veselý, CSc.**

Mathematical Institute of the Charles University

**Wednesday, November 25, 10:00 – 12:00**

The lecture will be live-streamed via Zoom:

Meeting ID: 922 8854 6637

Passcode: 816262

#### **Abstract of the lecture:**

In his lecture, Jiří Veselý will survey the development of mathematics and the destinies of mathematicians in the so-called "Czech lands". The considered time starts in the middle of the 14th century and ends by World War II. In his lecture, he will focus mostly on mathematicians of Czech origin, but he will also mention several foreigners who lived in the territory of Czech lands. Jiří Veselý will present their discoveries, work, and several interesting facts.
